

**STATE OF ILLINOIS  
DEPARTMENT OF EMPLOYMENT SECURITY**

**2024  
STATE EXPERIENCE FACTOR  
AND  
EMPLOYERS' UI CONTRIBUTION RATES**

The 2024 State Experience Factor for unemployment insurance contributions is **126%**. The State Experience Factor for 2023 was 127%. Employers' 2024 contribution rates are computed in accordance with the Illinois Unemployment Insurance Act ("the Act").

**DETERMINATION OF THE STATE EXPERIENCE FACTOR**

The State Experience Factor is determined in the following manner:

**1. The Unadjusted State Experience Factor**

This is the ratio of all regular benefits paid (including benefits charged to reimbursable employers) during the period from July 1, 2020 to June 30, 2023 to net revenues during the period from October 1, 2020 to September 30, 2023. Net revenues include receipts from reimbursable employers.

**2. Adjustment Points**

An adjustment is made to the 2024 State Experience Factor when the amount standing to the credit of this State's account in the Unemployment Insurance Trust Fund, as of June 30, less the Benefit Reserve for Fund Building from July 1, 1987 through June 30, 2023, varies from the sum of \$1.75 billion. For every \$50 million, or fraction thereof, by which this adjusted Trust Fund balance exceeds \$1.75 billion, the State Experience Factor is decreased by one percentage point. For every \$50 million, or fraction thereof, by which the amount falls below \$1.75 billion, the State Experience Factor is increased by one percentage point.

## COMPUTATION OF THE STATE EXPERIENCE FACTOR FOR 2024

The State Experience Factor for 2024 was computed as follows:

### 1. Unadjusted State Experience Factor:

All Benefits Paid 07/01/2020 thru 06/30/2023                      \$8,875,344,460

Net Revenues 10/01/2020 thru 09/30/2023                      \$7,171,298,070

Unadjusted factor = 123.7620%  
or 124%

Calculated experience rated revenue liabilities (10/01/2020 thru 09/30/2023)

Net Revenue =  $\frac{\text{Reimbursable revenue receipts (10/01/2020 thru 09/30/2023)}}{\text{Net Revenue}}$

Note: Under the provisions of the Act, the ratio of 123.7620% was rounded to the nearer multiple of one percent, namely 124%.

### 2. Adjustment Points

The amount standing to the credit of Illinois' account in the Unemployment Insurance Trust Fund as of 06/30/2023: \$1,780,631,662

Minus Benefit Reserves for Fund Building: \$15,221,257

Adjusted Trust Balance: \$1,765,410,405

Amount used as the basis for adjustment points (Targeted Balance): \$1,750,000,000

Targeted Balance minus Adjusted Trust Balance: - \$15,410,405

- \$15,410,405

Adjustment Points  $\frac{-\$15,410,405}{\$50,000,000} = -0.3082 = -1\%$

3. **Bonus Points**

- 3 points added per statute 820 ILCS 405/1505 (I D-4)

4. **Calculated Adjusted State Experience Factor:**

- Unadjusted State Experience Factor for 2024: 124%
- Minus Adjustment Points: -1%
- Bonus Points: 3%
- **2024 State Experience Factor as adjusted: 126%**

## **EMPLOYERS' CONTRIBUTION RATES FOR 2024**

Most employers who became liable for the payment of contributions *on or after January 1, 2022* will pay at the entry rate of **3.950%**. The Act dictates that employers pay higher entry rates if they are in a North American Industrial Classification System (NAICS) sector that has an average tax rate above the standard entry rate. For 2024, there are no NAICS sectors whose average tax rate is above the standard entry rate.

The above entry rate includes the **0.550%** Fund Building Rate in effect for 2024.

Employers who became liable *between January 1, 2022 and June 1, 2022* (i.e. had at least 13 months of experience as of June 30, 2023) will have the greater of: the standard new employer rate of **3.950%** or a rate based on their experience. Their contribution rate will be determined as specified below for experience rated employers except that the period used will be July 1, 2022 through June 30, 2023.

Employers who have incurred liability for the payment of contributions within each of the three or more years immediately preceding 2024 will qualify for a variable rate based on their individual experience. These employers may calculate their 2024 contribution rate as follows:

## 1. Determine your BENEFIT RATIO

There are three components of the Benefit Ratio:

**Benefit Charges** -- These are listed on the BEN-118 Statement of Benefit Charges.

**Benefit Conversion Factor (BCF)** -- The BCF gives Benefit Charges the same statewide financial impact as Benefit Wages (charges to employer accounts prior to July 1, 1989) to insure the stability of the Unemployment Insurance Trust Fund. The 2024 BCF is **138.4%**.

**Taxable Wages** -- These are reported on the UI-3/40 Quarterly Contribution and Wage Report.

If you have incurred liability within each of the **three** calendar years immediately preceding 2024, calculate your Benefit Ratio as follows:

1. Total the Benefit Charges for the period July 2022 through June 2023.
2. Multiply the total Benefit Charges by the Benefit Conversion Factor of 138.4%.
3. Divide these Converted Benefit Charges by your Taxable Wages for the period July 2022 through June 2023. This result, rounded to four places past the decimal when expressed as a percentage, is your 2024 Benefit Ratio

If you have incurred liability within each of the **four** calendar years immediately preceding 2024, calculate your Benefit Ratio as follows:

1. Total the Benefit Charges for the period July 2021 through June 2023.
2. Multiply the total Benefit Charges by the Benefit Conversion Factor of 138.4%.
3. Divide these Converted Benefit Charges by your Taxable Wages for the period July 2021 through June 2023. This result, rounded to four places past the decimal when expressed as a percentage, is your 2024 Benefit Ratio.

If you have incurred liability within each of the **five** calendar years immediately preceding 2024, calculate your Benefit Ratio as follows:

1. Total the Benefit Charges for the period July 2020 through June 2023.
2. Multiply the total Benefit Charges by the Benefit Conversion Factor of 138.4%.
3. Divide these Converted Benefit Charges by your Taxable Wages for the period July 2020 through June 2023. This result, rounded to four places past the decimal when expressed as a percentage, is your 2024 Benefit Ratio.

**2. Multiply your Benefit Ratio by the STATE EXPERIENCE FACTOR**

Multiply your Benefit Ratio by the 2024 State Experience Factor of **126%**. Round the product to the nearest one-tenth of one percent.

**3. Add the product in item 2 to the FUND BUILDING RATE**

The Fund Building Rate for 2024 is **0.550%**. This rate is provided for in the Illinois Unemployment Insurance Act and is included in the rate calculation to aid in the maintenance of a solvent Unemployment Insurance Trust Fund.

The **minimum contribution rate** for 2024 is **0.850%** ( $0.2\% \times 126\%$  plus the 0.55% Fund Building Rate).

The **maximum contribution rate** for 2024 is **8.650%** ( $6.400\% \times 126\%$  plus the 0.55% Fund Building Rate).

NOTE: An experience-rated employer whose contribution rate is **higher than 5.400%** and whose **total quarterly wages are less than \$50,000** pays contributions at **5.400%** in that quarter.

**WAGE LIMITATION**

Only the first \$13,590 of wages paid to a worker in calendar year 2024 are subject to the payment of contributions.

**Examples of Rate Calculation**

1. An employer's Benefit Ratio of 0.0310% is multiplied by the 2024 State Experience Factor of 126% to get 0.0391% which rounds to 0.0%. After adding the Fund Building Rate of 0.550%, the employer's 2024 contribution rate is determined to be the minimum rate of 0.850%.
2. An employer's Benefit Ratio of 1.5299% is multiplied by the 2024 State Experience Factor of 126% to get 1.9277% which rounds to 1.9%. After adding the Fund Building Rate of 0.550%, the employer's 2024 contribution rate is determined to be 2.450%.

3. An employer's Benefit Ratio of 11.0612% is multiplied by the 2024 State Experience Factor of 126% to get 13.9371% which rounds to 13.9%. Adding the Fund Building Rate of 0.550% equals 14.45%. The employer's 2024 contribution rate is determined to be limited to the maximum rate of 8.650%.
