Introduction

Where Workers Work features basic private sector employment totals (i.e., employment covered by the Illinois Unemployment Insurance Act) for six northeastern Illinois counties (Cook, DuPage, Kane, Lake, McHenry and Will), major communities in each of these counties, and zip codes within the City of Chicago. This is not the Chicago Metropolitan Division (MD). As of June 2003, the definition of the Chicago MD includes eight counties: Cook, DeKalb, DuPage, Grundy, Kane, Kendall, Lake, McHenry and Will counties. Lake County is included in the Lake County-Kenosha County, IL-WI MD. Data for the other three Illinois counties (DeKalb, Kendall and Grundy) that are included in the Chicago MD, but not part of this report, are available at <http://www.ides.illinois.gov/page.aspx?item=914>.

Where Workers Work utilizes administrative data collected under the Illinois Unemployment Insurance Act. The Act requires employers to report employment and payroll information. This information becomes part of the Quarterly Census of Employment and Wages database (ES-202) on which *Where Workers Work* is based. The Act does not require employers to report their employment by individual

work locations. However, data in *Where Workers Work* do, whenever possible, reflect actual worksites of work locations.

Effective with the 1998-89 edition, **O'Hare International Airport** was reported as part of the City of Chicago rather than Northwest Suburban Cook; appropriate adjustments have been made so that the historical data shown in this edition also reflect that change. Effective with the 1972 edition, more than 20 **new suburban communities** were broken out from "miscellaneous" and "unclassified" groupings and are so noted. Effective with 2002 data, **another 19 breakouts** were added and are so noted. Finally, the zip code 60648 is no longer shown because the zip code has been deleted by the U.S. Postal Service.

The **industry breakouts** in these tables are identified by name and by NAICS (North American Industry Classification System) code. The data tables for *Where Workers Work* began using NAICS in 2011. The data tables used Standard Industrial Classification (SIC) industry coding prior to 2001. Data for employment is not comparable at the industry level for SIC and NAICS.

special comments

Where Workers Work utilizes administrative data collected under the Illinois Unemployment Insurance Act. The Act requires employers to report their employment, and this information becomes part of the Quarterly Census of Employment and Wages database (ES-202) on which *Where Workers Work* is based. The Act does not require employers to report their employment **by work location**.

It should also be noted that specific community data may be impacted to a significant extent by employer reporting inconsistencies.

Where Workers Work Announcement

The *Where Workers Work* publication features employment totals that are broken out by the North American Industry Classification System (NAICS) categories. NAICS provides industry categories which better reflect the United States and Illinois economies.

Industries are organized on the basis of their production activities (supply) alone, as opposed to the mixture of supply and demand characteristics used to classify industries under the SIC. NAICS also standardizes the classification system of the 3 partners in the North American Free Trade Agreement (NAFTA): the United States, Canada, and Mexico.

More information on NAICS can be found at the following Web address:

<http://www.census.gov> and clicking on the link to NAICS or through this direct Web address: <http://www.census.gov/eos/www/naics>.

The Where Workers Work data tables are available on the Internet through this link: <http://lmi.ides.state.il.us/wwwwork.htm>.

Data Table Notes

In the following tables A/ represents numbers omitted to avoid disclosure of individual data.

The institution of multiple worksite coding precludes the comparison of data beginning with 1991 with data from earlier years.

City of Chicago includes O'Hare International Airport.
