Introduction

Where Workers Work features private sector covered employment totals (i.e., employment covered by the Illinois Unemployment Insurance Act) for six northeastern Illinois counties (Cook, Du Page, Kane, Lake, Mc Henry, and Will), major communities in each of these counties, and zip codes within the city of Chicago. These 6 counties comprise the bulk of the Illinois portion of the official Chicago-Naperville-Joliet, IL-IN-WI MSA and have been included in *Where Workers Work* since it was first published. County-level data for the other three Illinois counties (De Kalb, Grundy and Kendall) in the Illinois portion of the MSA that are not included in this report are available at the LMI Source Web site (lmi.ides.state.il.us), by selecting the Quarterly Census of Employment and Wages (ES-202) link, then Illinois at Work.

Where Workers Work utilizes administrative data collected under the Illinois Unemployment Insurance Act. The Act requires employers to report employment and payroll information. This information becomes part of the Quarterly Census of Employment and Wages database (ES-202) on which *Where Workers Work* is based. The Act does not require employers to report their employment by individual work locations. However, since 1991, data in *Where Workers Work* do, wherever possible, reflect actual worksites of work locations as reported under the Business Establishment List (BEL) initiative discussed in the Special Comments section on page 4 of this file.

In addition to the BEL initiative, there have been a few other developments affecting *Where Workers Work*. Effective with the 1988-89 edition, **O'Hare International Airport** was reported as part of the City of Chicago rather than Northwest Suburban Cook; appropriate adjustments have been made so that the historical data shown in this edition also reflect that change. Effective with the 1972 edition, more than 20 **new suburban communities** were broken out from "miscellaneous" and "unclassified" groupings and are so noted. Effective with 2002 data, **another 19 breakouts** were added and are so noted. Finally, the zip code 60648 is no longer shown because the zip has been deleted by the US Postal Service.

The **industry breakouts** in these tables are identified by name and by NAICS (North American Industry Classification System) code.

MISCELLANEOUS UNCLASSIFIED: A grouping of suburban communities or geographic areas that cannot be shown separately because none has been assigned a unique code. An explanation of Miscellaneous Suburban Areas is provided on pages 8-11 of this report.

special comments

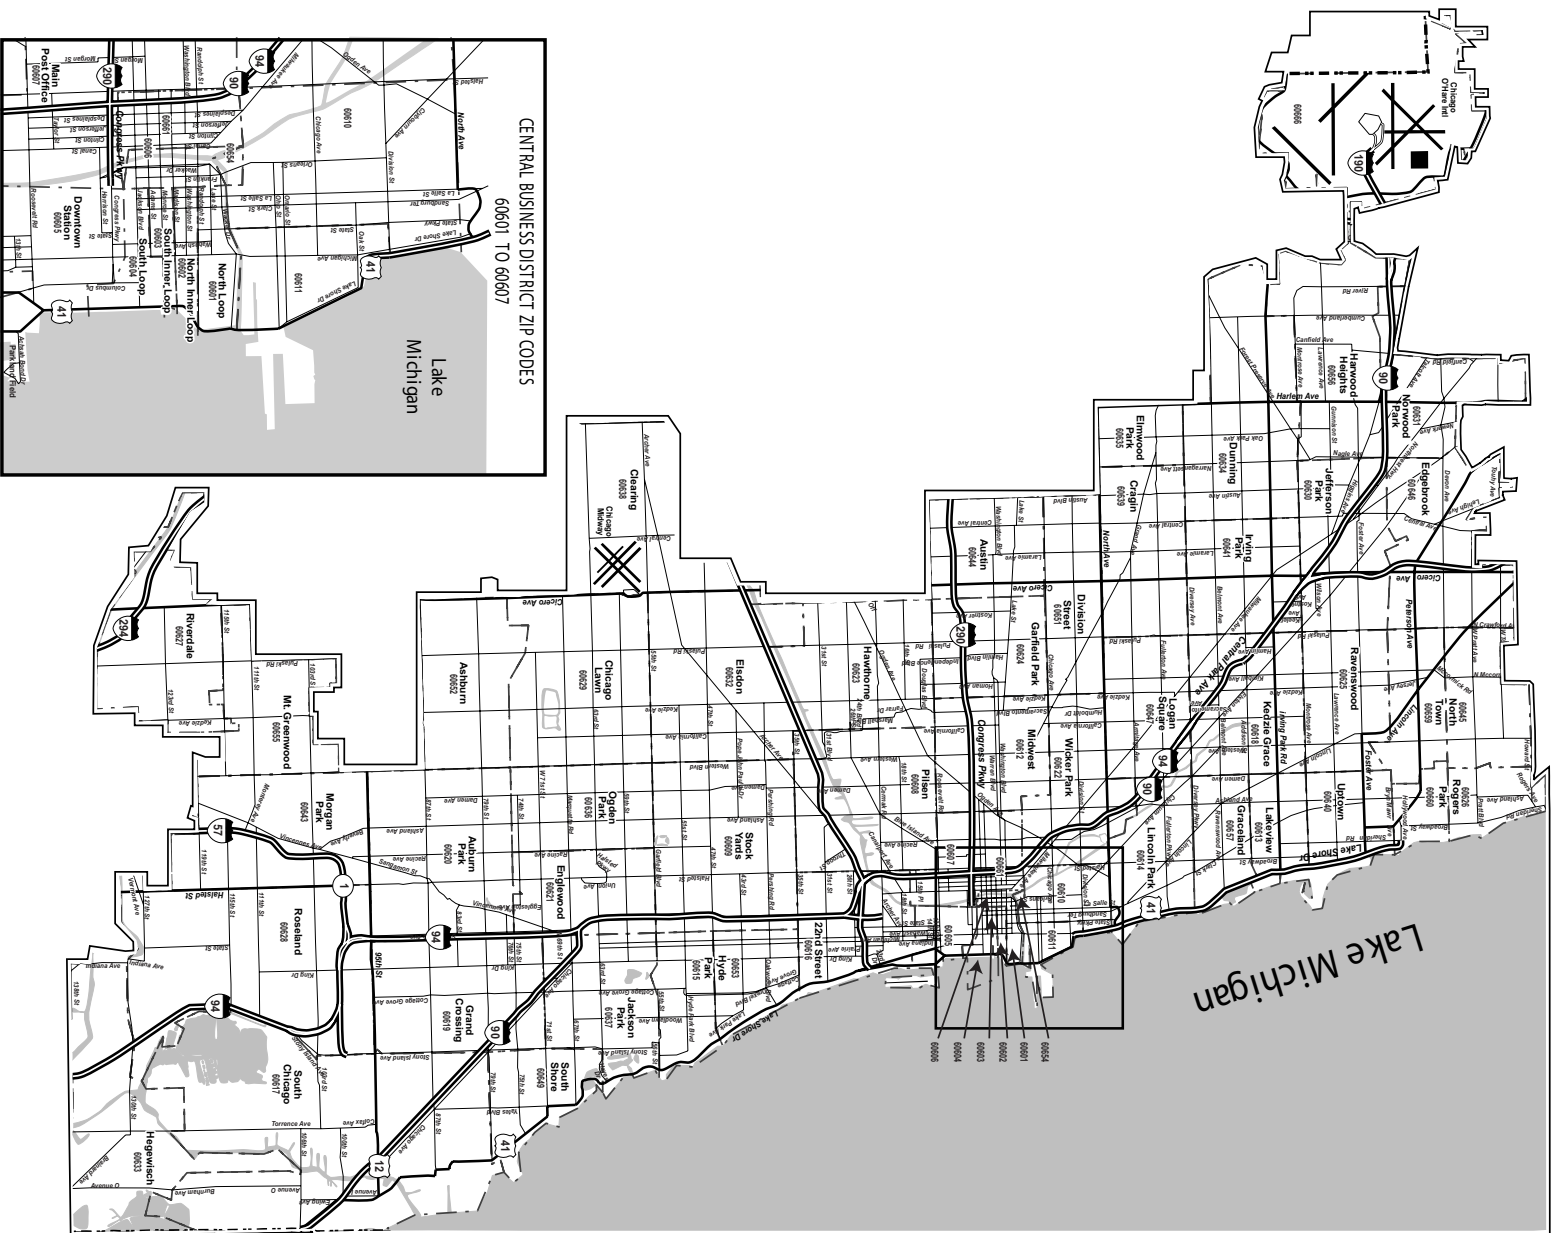

Where Workers Work utilizes administrative data collected under the Illinois Unemployment Insurance Act. The Act requires employers to report their employment, and this information becomes part of the Quarterly Census of Employment and Wages (ES-202) database on which *Where Workers Work* is based. The Act does not require employers to report their employment **by work location**. The US Bureau of Labor Statistics initiated a nationwide intensive effort to solicit employment information **by work location**, called the Business Establishment List (BEL). The first effects of BEL are reflected in 1991. Under BEL, employment for multiple work locations, that was traditionally reported wholly at a headquarters or central location, is now reported for each work location. This more accurately reflects the distribution of employment in Illinois, but caused an interruption in the data series as of 1991. We will continue to report data for years prior to 1991 as a courtesy (establishment tables appear again this year), but comparisons across time are discouraged.

It should also be noted that specific community data may be impacted to a significant extent by employer reporting inconsistencies.

Where Workers Work Announces

The *Where Workers Work* report features employment totals that are broken out by the North American Industry Classification System (NAICS) categories. NAICS organizes industries on the basis of their production activities. NAICS also standardizes the classification system of the 3 partners in the North American Free Trade Agreement (NAFTA): the United States, Canada, and Mexico.
