Introduction

Where Workers Work features private sector covered employment totals (i.e., employment covered by the Illinois Unemployment Insurance Act) for six northeastern Illinois counties (Cook, Du Page, Kane, Lake, Mc Henry, and Will), major communities in each of these counties, and zip codes within the city of Chicago. These 6 counties comprise the bulk of the Illinois portion of the official Chicago-Naperville-Joliet, IL-IN-WI MSA and have been included in Where Workers Work since it was first published. County-level data for the other three Illinois counties (De Kalb, Grundy and Kendall) in the Illinois portion of the MSA that are not included in this report are available at the LMI Source Web site (lmi.ides.state.il.us), by selecting the Quarterly Census of Employment and Wages (ES-202) link, then Illinois at Work.

Where Workers Work utilizes administrative data collected under the Illinois Unemployment Insurance Act. The Act requires employers to report employment and payroll information. This information becomes part of the Quarterly Census of Employment and Wages database (ES-202) on which *Where Workers Work* is based. The Act does not require employers to report their employment by individual work locations. However, since 1991, data in *Where Workers Work* do, wherever possible, reflect actual worksites of work locations as reported under the Business Establishment List (BEL) initiative discussed in the Special Comments section on page 4 of this file.

In addition to the BEL initiative, there have been a few other developments affecting Where Workers Work. Effective with the 1988-89 edition, **O'Hare International Airport** was reported as part of the City of Chicago rather than Northwest Suburban Cook; appropriate adjustments have been made so that the historical data shown in this edition also reflect that change. Effective with the 1972 edition, more than 20 **new suburban communities** were broken out from "miscellaneous" and "unclassified" groupings and are so noted. Effective with 2002 data, **another 19 breakouts** were added and are so noted. Finally, the zip code 60648 is no longer shown because the zip has been deleted by the US Postal Service.

The **industry breakouts** in these tables are identified by name and by NAICS (North American Industry Classification System) code.

Highlights

Information (-27.5%) was the industry sector that had the largest decrease in employment.

technical notes

Data in Where Workers Work are: 1) preliminary for the most current year, 2) as of March for each year, 3) subject to revision in subsequent years, and 4) based on information collected under the Illinois Unemployment Insurance (UI) Act: The Illinois UI Act covers any employer of one or more workers in each of 20 or more calendar weeks or with a payroll of at least \$1,500 in any calendar quarter in the current or preceding calendar year. Data are for the private sector and exclude government workers.

geographic definitions

CHICAGO METRO AREA: Cook, Du Page, Kane, Lake, Mc Henry, and Will counties. This is not the Chicago Primary Metropolitan Statistical Area (PMSA). As of January 1994, the definition of the Chicago PMSA includes nine counties: Cook, De Kalb, Du Page, Grundy, Kane, Kendall, Lake, Mc Henry, and Will counties.

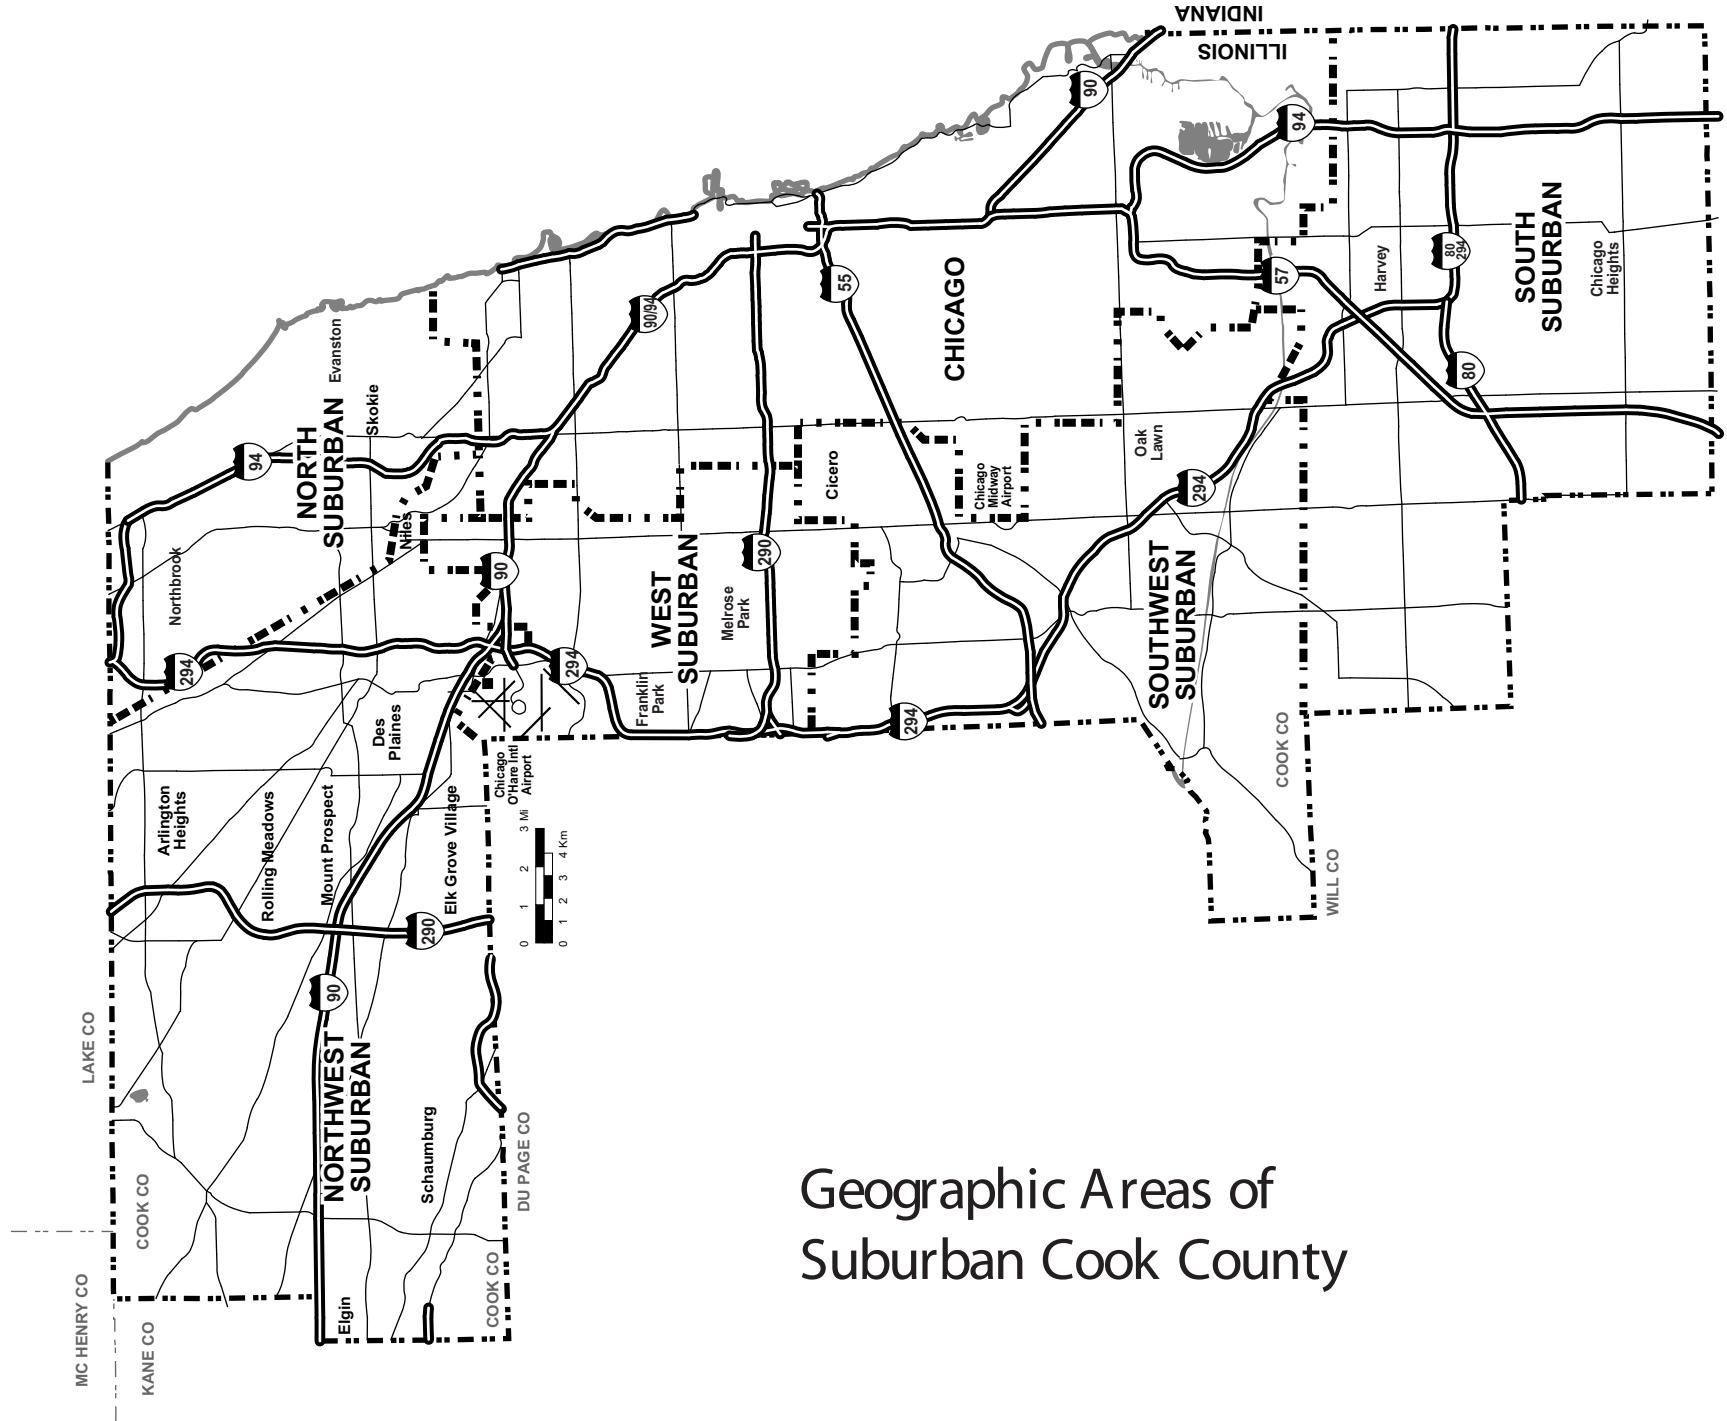

MISCELLANEOUS: A grouping of suburban communities or geographic areas that cannot be shown separately because none has been assigned a unique code. An explanation of Miscellaneous Suburban Areas is provided on pages 8-11 of this publication.

UNCLASSIFIED: Includes workers who cannot be allocated to one particular location, such as outside salespersons or construction workers.

special comments

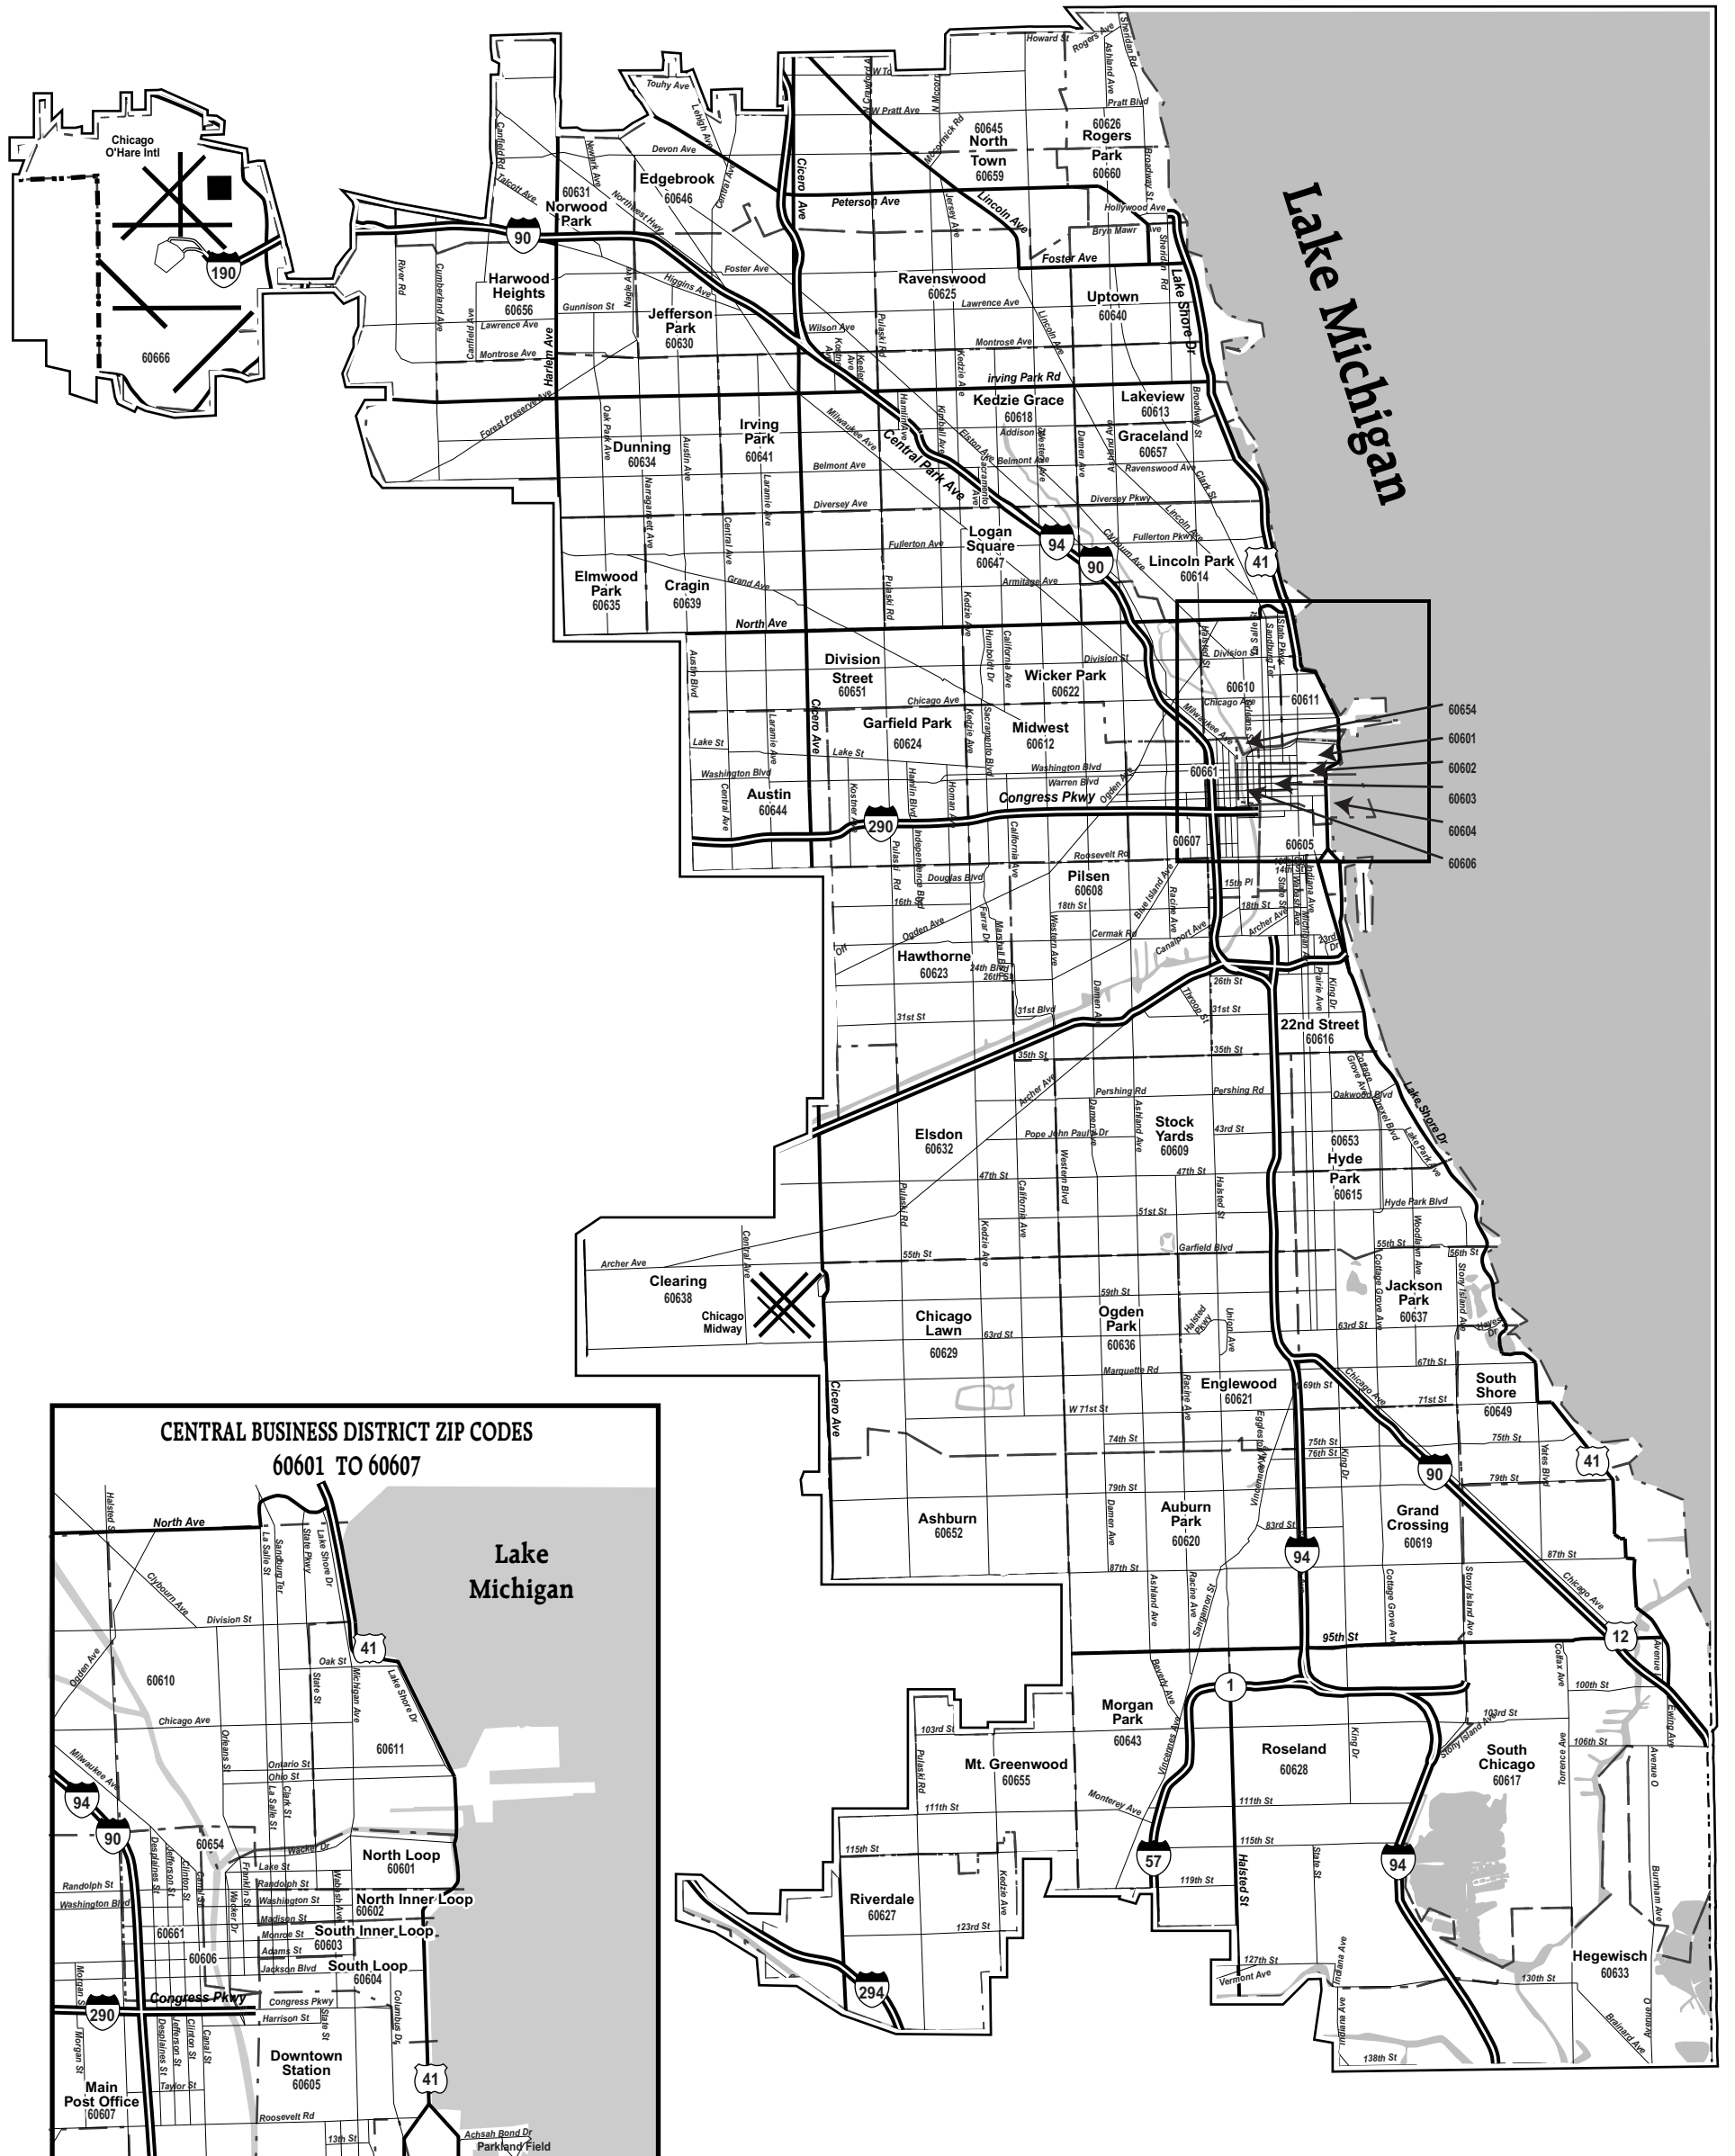

Where Workers Work utilizes administrative data collected under the Illinois Unemployment Insurance Act. The Act requires employers to report their employment, and this information becomes part of the Quarterly Census of Employment and Wages database (ES-202) on which Where Workers Work is based. The Act does not require employers to report their employment by work location. The US Bureau of Labor Statistics recently initiated a nationwide intensive effort to solicit employment information by work location, called the Business Establishment List (BEL). The first effects of BEL are reflected in 1991. Under BEL, employment for multiple work locations, that was traditionally reported wholly at a headquarters or central location, is now reported for each work location. This more accurately reflects the distribution of employment in Illinois, but caused an interruption in the data series as of 1991. We will continue to report data for years prior to 1991 as a courtesy (establishment tables appear again this year), but comparisons across time are discouraged.

It should also be noted that specific community data may be impacted to a significant extent by employer reporting inconsistencies.

Where Workers Work Announcements

The Where Workers Work publication features employment totals that are broken out by the North American Industry Classification System (NAICS) categories. NAICS provides industry categories which better reflect the United States and Illinois economies.

Industries are organized on the basis of their production activities (supply) alone, as opposed to the mixture of supply and demand characteristics used to classify industries under the SIC. NAICS also standardizes the classification system of the 3 partners in the North American Free Trade Agreement (NAFTA): the United States, Canada, and Mexico.

More information on NAICS can be found at the following Web address:

<http://www.census.gov/epcd/www/naics.html>

The Where Workers Work data tables are available on the LMI Source Web Site (<http://lmi.ides.state.il.us>). Just select Where Workers Work under the list of Publications. The direct link to this page is

Data Table Notes

In the following tables A/ represents numbers omitted to avoid disclosure of individual data.

The institution of multiple worksite coding precludes the comparison of data beginning with 1991 with data from earlier years.

City of Chicago includes O'Hare International Airport.
