2019
STATE EXPERIENCE FACTOR

AND

EMPLOYERS' UI CONTRIBUTION RATES

The 2019 State Experience Factor for unemployment insurance contributions is 83%. The State Experience Factor for 2018 was 100%. Employers’ 2019 contribution rates are computed in accordance with the Illinois Unemployment Insurance Act (“the Act”).

DETERMINATION OF THE STATE EXPERIENCE FACTOR

The State Experience Factor is determined in the following manner:

1. **The Unadjusted State Experience Factor**

   This is the ratio of all regular benefits paid (including benefits charged to reimbursable employers) during the period from July 1, 2015 to June 30, 2018 to net revenues during the period from October 1, 2015 to September 30, 2018. Net revenues include receipts from reimbursable employers.

2. **Adjustment Points**

   An adjustment is made to the 2019 State Experience Factor when the amount standing to the credit of this State’s account in the Unemployment Insurance Trust Fund, as of June 30, less the Benefit Reserve for Fund Building from July 1, 1987 through June 30, 2018, varies from the sum of $1 billion. For every $50 million, or fraction thereof, by which this adjusted Trust Fund balance exceeds $1 billion, the State Experience Factor is decreased by one percentage point. For every $50 million, or fraction thereof, by which the amount falls below $1 billion, the State Experience Factor is increased by one percentage point.
COMPUTATION OF THE STATE EXPERIENCE FACTOR FOR 2019

The State Experience Factor for 2019 was computed as follows:

1. **Unadjusted State Experience Factor:**

   \[
   \text{All Benefits Paid 07/01/2015 thru 06/30/2018} = \$5,689,091,209
   \]

   \[
   \text{Net Revenues 10/01/2015 thru 09/30/2018} = \$5,496,898,309
   \]

   Unadjusted factor $= 103.4964\%$
   or 103\%

   Net Revenue = \([\text{the calculated experience rated revenue liabilities (10/01/2015 thru 09/30/2018)} + \text{reimbursable revenue receipts (10/01/2015 thru 09/30/2018)}]\]

   Note: Under the provisions of the Act, the ratio of 103.4964\% was rounded to the nearer multiple of one percent, namely 103\%.

2. **Adjustment Points**

   The amount standing to the credit of Illinois’ account in the Unemployment Insurance Trust Fund as of 06/30/2018: $1,966,695,932

   Minus Benefit Reserves for Fund Building for July 1, 1987 through June 30, 2018: $15,221,257

   Amount used as the basis for adjustment points (Targeted Balance): $1,000,000,000

   Targeted Balance minus Adjusted Trust Balance: -$951,474,675

   \[
   \begin{align*}
   \text{Adjustment Points} & = \frac{-951,474,675}{50,000,000} = -19.0295 = -20* \\
   \end{align*}
   \]

   *Under provisions of the Act, any fractional Adjustment Points are rounded to the next highest multiple.

3. **Unadjusted State Experience Factor for 2018:** 103\%

   Add Adjustment Points: -20\%

   **2018 State Experience Factor as adjusted:** 83\% **

   **The 2018 adjusted state experience factor was 100\%, which pursuant to the Act included an additional 6% absolute above the calculated Factor of 94\%. Pursuant to the Act for 2019, the calculated Factor of 94\% is to be used as the starting point for applying the 12 percentage point downward constraint to the adjustment points, which allows the adjusted state experience factor to go from 100\% in 2018 to 83\% in 2019.**

EA-50 (Prepared 11/2018)
EMPLOYERS’ CONTRIBUTION RATES FOR 2019

Most employers who became liable for the payment of contributions on or after January 1, 2017 will pay at the entry rate of 3.175%. However, the Act dictates that employers pay higher entry rates if they are in a North American Industrial Classification System (NAICS) sector that has an average tax rate above the standard entry rate. New employers in the following NAICS sector will pay higher entry rates:

Mining (sector 21) 3.575%

The above entry rates include the 0.475% Fund Building Rate in effect for 2019.

Employers who became liable between January 1, 2017 and June 1, 2017 (i.e. had at least 13 months of experience as of June 30, 2017) will have the greater of: the standard new employer rate of 3.175%, or their NAICS sector average rate as noted above, or a rate based on their experience. Their contribution rate will be determined as specified below for experience rated employers except that the period used will be July 1, 2017 through June 30, 2018.

Employers who have incurred liability for the payment of contributions within each of the three or more years immediately preceding 2019 will qualify for a variable rate based on their individual experience. These employers may calculate their 2019 contribution rate as follows:

1. Determine your
   Benefit Ratio

   There are three components of the Benefit Ratio:

   Benefit Charges -- These are listed on the BEN-118 Statement of Benefit Charges.
Benefit Conversion Factor (BCF) -- The BCF gives Benefit Charges the same statewide financial impact as Benefit Wages (charges to employer accounts prior to July 1, 1989) to insure the stability of the Unemployment Insurance Trust Fund. The 2018 BCF is 138.4%.

Taxable Wages -- These are reported on the UI-3/40 Quarterly Contribution and Wage Report.

If you have incurred liability within each of the three calendar years immediately preceding 2019, calculate your Benefit Ratio as follows:

2. Multiply the total Benefit Charges by the Benefit Conversion Factor of 138.4%.
3. Divide these Converted Benefit Charges by your Taxable Wages for the period July, 2017 through June, 2018. This result, rounded to four places past the decimal when expressed as a percentage, is your 2019 Benefit Ratio.

If you have incurred liability within each of the four calendar years immediately preceding 2019, calculate your Benefit Ratio as follows:

1. Total the Benefit Charges for the period July, 2016 through June, 2018.
2. Multiply the total Benefit Charges by the Benefit Conversion Factor of 138.4%.
3. Divide these Converted Benefit Charges by your Taxable Wages for the period July, 2016 through June, 2018. This result, rounded to four places past the decimal when expressed as a percentage, is your 2019 Benefit Ratio.

If you have incurred liability within each of the five calendar years immediately preceding 2019, calculate your Benefit Ratio as follows:

2. Multiply the total Benefit Charges by the Benefit Conversion Factor of 138.4%.
3. Divide these Converted Benefit Charges by your Taxable Wages for the period July, 2015 through June, 2018. This result, rounded to four places past the decimal when expressed as a percentage, is your 2019 Benefit Ratio.
2. **Multiply your Benefit Ratio by the STATE EXPERIENCE FACTOR**

   Multiply your Benefit Ratio by the 2018 State Experience Factor of 83%. Round the product to the nearest one-tenth of one percent.

3. **Add the product in item 2 to the FUND BUILDING RATE**

   The Fund Building Rate for 2019 is 0.475%. This rate is provided for in the Illinois Unemployment Insurance Act and is included in the rate calculation to aid in the maintenance of a solvent Unemployment Insurance Trust Fund.

   The **minimum contribution rate** for 2019 is 0.475% (0% plus the 0.475% Fund Building Rate). The **maximum contribution rate** for 2019 is 6.875% (6.400% plus the 0.475% Fund Building Rate).

   NOTE: An experience-rated employer whose contribution rate is higher than 5.400% and whose total quarterly wages are less than $50,000 pays contributions at 5.400% in that quarter.

   **WAGE LIMITATION**

   Only the first $12,960 of wages paid to a worker in calendar year 2019 are subject to the payment of contributions.

   **Examples of Rate Calculation**

   1. An employer's Benefit Ratio of 0.0310% is multiplied by the 2019 State Experience Factor of 83% to get 0.0257 which rounds to 0.0%. After adding the Fund Building Rate of 0.475%, the employer's 2019 contribution rate is 0.475%.

   2. An employer's Benefit Ratio of 1.5299% is multiplied by the 2019 State Experience Factor of 83% to get 1.2698% which rounds to 1.3%. After adding the Fund Building Rate of 0.475%, the employer's 2019 contribution rate is determined to be 1.775%.

   3. An employer's Benefit Ratio of 8.0612% is multiplied by the 2019 State Experience Factor of 83% to get 6.6907% which rounds to 6.7%. Although adding the Fund Building Rate of 0.475% equals 7.175%, the employer's 2019 contribution rate is the maximum rate of 6.875%.
