SUMMER CONFERENCES

Training Resources

This summer your Illinois CIS360 team will be working hard (like the cicadas) creating new training resources, materials, and training sessions. In the meantime, please take advantage of these upcoming summer conferences, workshops, and training opportunities. We'll be there too!

If you would like a virtual overview during the summer, please email us at des.cistraining@illinois.gov.

The **Illinois State Board of Education Career Connections Conference** offers educators the opportunity to learn from and collaborate with educators from across Illinois. At the ISBE Career Connections Conference, CTE educators come together to exchange ideas, share best practices, and foster meaningful connections with their peers in order to improve opportunities and deepen learning for all students.

For more information and registration details, visit Career Connections Conference (isbe.net)

2024 CCE Conference – You're invited to register now to join other equity designers as we come together at the 2024 College Changes Everything® (CCE) conference – Community Health on **July 18, 2024** at the Tinley Park Convention Center. The annual conference is the state's foremost college access and success and career readiness event. Diverse stakeholders come together and learn from each other to help Illinois reach its Goal 2025 – to increase the proportion of adults in Illinois with high-quality degrees and postsecondary credentials to 60% by the year 2025.

Equity continues to be at the heart of the CCE conference as we strive to ensure all students have opportunities for college access and success and they are career ready. This year we consider the role of community health on educational equity. As we champion CCE to highlight how education is an essential component of other policy areas, we need to highlight the role community health plays in advancing educational equity for Illinois students and families.

Register now and visit the conference website for more details.
