

Monthly Employment Situation for Veterans

Released Monthly on the day of the U.S. Employment Situation

Economic Information & Analysis, Illinois Department of Employment Security

Release date April 7, 2023

National Data (Only data from the Monthly Report, Table A-5 will be updated monthly)

The U.S. Bureau of Labor Statistics reports monthly the employment status of the civilian population 18 years and over by veteran status, period of service and sex, not seasonally adjusted. (Table A-5) **In March 2023, the unemployment rate for all Veterans over 18 was 2.4%, the same as 2.4% in March 2022. The unemployment rate for Gulf War-era II Veterans over 18 was 2.8% in March 2023, down from 3.0% in March 2022.** These numbers are not seasonally adjusted; they come from a small sample and are highly volatile from one month to the next. The April veteran's employment situation figures will be available on May 5, 2023. Here is a link to March U.S. Employment Situation:

State Data

Employment and unemployment statistics by Veteran status for the state of Illinois presented here are annual averages produced by the U.S. Bureau of Labor Statistics for the Veteran's Employment and Training Services (VETS) in the Department of Labor. These figures are used by VETS in their State allocations under the Jobs for Veterans Act. **The Illinois unemployment rate for Veterans aged 18 years and older in 2022 was 3.4 percent, down from 4.9 percent in 2021.** The BLS cautions that these data come from a small sample and are subject to large sampling error.

The unemployment rate for Post 9/11 Veterans in Illinois was 2.8 percent in 2022 compared to the 3.4 percent rate for Total Veterans in Illinois. The margins of error may be large due to small sampling size.
